The Van Nuys Hotel was established in the year 1911, making it the first commercial structure on Van Nuys Blvd.--according to some sources. It is an extremely well-built structure and could be beautifully restored.

My research has taken me back to 1937 when Van Nuys resident, Andrew C. Pagay, owned and operated the Hotel. More research is needed, but the Van Nuys Hotel should be preserved as a cultural and historic landmark in the San Fernando Valley.

Future reports will be given as additional information is obtained.
